

INDEX TO VOLUME 24

A

- Abramson, D. I., 565*
- , and Fierst, S. M., 135*
- Abramson, E. B., Fishback, D. B., and Guttman, S. A., 423*
- Acetyl-beta-methylcholine, tachycardia, atrio-ventricular nodal paroxysmal, in infant treated with, 278*
- Addison's disease, treatment of, size of heart as a guide to, with desoxycorticosterone acetate, 99
- Adrenal preparation, circulatory response of unanesthetized dog to small physiologic quantities of, 284*
- desoxycorticosterone acetate, size of heart as guide to treatment of Addison's disease with, 99
- Age and auricular fibrillation as independent factors in auricular mural thrombus formation, 1
- sex and race relationships of auricular fibrillation, 852*
- Aguirre, R. S., and Castilla, C. R., 279*
- Allen, C. R., Stutzman, J. W., Slocum, H. C., and Orth, O. S., 432*
- Allergy, vascular, II. Manifestations of polyvalent sensitization, 569*
- Alpha lobeline method, duplicate measurements of circulation time made with, 863*
- Altitude, high, effect of, and rebreathing on duration of electrical systole in man, 230
- Altschule, M. D., Gilligan, D. R., and Zamcheck, N., 712*
- , and Klainer, M. J., 130*
- , Linenthal, H., and Zamcheck, N., 133*
- American Heart Association, announcement, 140
- Ane, J. N., and Burch, G. E., 283*
- Aneurysm, arteriovenous, cerebral, 429*
- cirsoid, 133*
- dissecting, of aorta, 654
- intracranial, their origin and clinical behavior in a series of verified cases, 567*
- of aorta, unusual site of, 417
- of heart, diagnosis of, 567*
- of one of sinuses of Valsalva caused by congenital lesion, 550
- of splenic artery and carcinoma of liver (hepatoma), report of two cases of chronic occlusion of portal vein, one associated with, 711*
- popliteal, 134*
- Aneurysm, popliteal—Cont'd
- bilateral, treated by bilateral excision, 282*
- Angina pectoris, abnormal suprarenal discharges in, and their control by x-ray therapy, 855*
- and peptic ulcer syndrome, 566*
- association of, or coronary thrombosis with mitral stenosis, 570*
- Angiography (*see* arteriography)
- Anomaly, congenital, cardiac, stenosis of pulmonary valve with closed cardiac septa, 685
- congenital, coronary artery arising from pulmonary artery, 118
- Antoni, Nils, 133*
- Aorta, aneurysm of, unusual site of, 417
- dissecting, of, 69, 654
- coarctation of, 577*
- a case of right axis deviation of electrocardiogram and auricular fibrillation with some statistics, 852*
- with rupture of wall below the point of constriction, report of a case and review of literature, 828
- hypoplasia of, without transposition, with electrocardiographic and histopathologic studies of the conduction system, 794
- isthmus of, stenosis of, diagnostic tomography of, and of persistence of arterial canal, 426*
- Aortitis, syphilitic, with aortic regurgitation, an electrocardiographic and autopsy survey at the Massachusetts General Hospital, 573*
- Arteries, pad, minute, reactions of digital artery and, to local cold, 866*
- retinal, arterial occlusion in relation to effort with special reference to, 860*
- Arteriosclerosis, 859*
- obliterans, reactive hyperemia ring test in study, evaluation and prognosis of pedal lesions caused by, and arterial embolism, 345
- peripheral, in the diabetic and non-diabetic: a study of one hundred and six amputated legs, 711*
- Arteritis, temporal, 410
- Arrhythmias, unusual, due to multiple sites of conduction delay in A-V junction in cases with a

Arrhythmias—Cont'd

- subiliary ventricular pace-maker located above bifurcation of common bundle, 31
- Arrighi, F. P., and Zwemer, R. L., 286*
- Arteriography, cerebral, 136*
 - with diodrast, 136*
- Artery, basilar, demonstration of, and its branches with thorotrast, 283*
 - brachial, embolectomy in, 137*
 - coronary, anomalous, arising from pulmonary artery, 118
 - disease of, diagnosis of, 710*
 - hyperactive cardioinhibitory carotid-sinus reflex as an aid in, its value compared with that of the electrocardiogram, 276*
 - interrelationship of disease of gall bladder and, 579
 - observations on dispensary patients, 566*
 - left, thirty years after ligation of anterior descending branch of, 562
 - ligation of, effect of digitalis on RS-T segment of electrocardiogram after, 671
 - occlusion, acute, of, factors influencing immediate mortality after, 4
 - phonocardiographic study of heart sounds in, 196
 - acute generalized postoperative peritonitis simulating, 565*
 - experimental, temporary, of, histochemical changes in myocardium of dogs following, 853*
 - five-year survival after perforation of interventricular septum caused by, histologic study of kidneys after 350 injections of mercurial diuretics, 807
 - follow-up studies in, I. Degree of recovery, symptoms and physical signs, 861*
 - studies on, III. The effect of digitalis on the RS-T segment of electrocardiogram after coronary ligation, 671
 - IV. Vasodilators and coronary circulation, experimental observations, 679
 - syphilitic stenosis of, with myocardial infarction, 740
 - thrombosis, acute, of, in industry, II. Indirect injuries from toxic gases and other physical agents, 187
 - association of angina pectoris or, with mitral stenosis, 570*
 - auricular complex in, 602
 - in a young diabetic, 861*
 - digital, reactions of, and minute pad arteries to local cold, 866*
 - embolism of, reactive hyperemia ring test in study, evaluation and prognosis of pedal lesions

Artery, embolism of—Cont'd

- caused by arteriosclerosis obliterans and, 345
- large, and veins, afferent nerve endings in, 128*
- occlusion of, in relation to effort with special reference to the retinal arteries, 860*
- popliteal, aneurysm of, 134*
- pulmonary, embolism of, thrombophlebitis and, 134*
 - ligation of, experiences in, 283*
 - occlusion of, artificially produced, electrocardiographic studies on, in human beings, 277*
- retinal, arteriovenous nicking, relation to enlargement of heart in ambulatory patients with hypertension, 428*
- spasm, traumatic, of, 133*
- splenic, aneurysm of, and carcinoma of liver (hepatoma), report of two cases of chronic occlusion of portal vein, one associated with, 711*
- superior mesenteric, syphilitic aneurysm of, 860*
- Ash, R., 131*
- Ashman, Richard, and Hull, Edgar, 287
- Asthma, bronchial, paroxysm of, electrocardiogram in, 427*
- Atheromatosis of mitral valve, 41
- Auricle, infarction of, clinical, pathologic and experimental studies, 427*
 - right, pressure of blood in, in animals and in man, under normal conditions and in right heart failure, 281*
- Auricular complex in thrombosis of coronary artery, 602
- Averbuck, S. H., 565*
- B
- Baldwin, E. DeF., Richards, D. W., Jr., Cournand, A., Darling, D. C., and Gillespie, W. H., 281*
- Ballistocardiogram, normal, comparison of results of, and a direct Fick method in measuring cardiac output in man, 712*
- Bamman, F., Jensen, H., Corwin, W. C., Tolsdorf, S., and Casey, J. J., 138*
- Barnes, A. E., and Burchell, H. B., 565*
- Barnes, Arlie R., and Woods, R. M., 4
- Barondes, R. deR., 138*
- Batterman, Robert C., and Engstrom, William W., 458
- , Rose, O. Allan, and DeGraff, Arthur C., 435
- Battro, A., and Labourt, F. E., 712*
- Bayer, N. H., and White, P. D., 867*
- Bayley, Robert H., 514
- Baylin, G. J., 852*
- Bender, M. B., and Wechsler, I. S., 574*
- Benjamin, J. E., Landt, H., and Landen, M., 566*

- Bereonsky, I., Cossio, P., and Dambrosi, R. G., 223
- Berghoff, R. S., Geraci, A. S., and Hirsch, D. A., 424*
- Berliner, K., and Lilienfeld, A., 863*
- Bernstein, P., and Mann, H., 851*
- Bevans, Margaret, and Wilkins, Sam A., Jr., 843
- Biliary tract, disease of, relationship between, and heart disease, 575*
- Binford, C. H., 860*
- Biskind, Gerson, Rosenblum, Harold, and Kruger, H. E., 734
- Blair, H. A., Wedd, A. M., and Hardwicke, H. M., 850*
- Blaney, L. F., Geiger, A. J., and Calabresi, M., 130*
- Blood and blood substitutes in treatment of hemorrhage, secondary shock, and burns, 138*
- flow, mean, of measurement of, in arteries and veins and by means of the rotameter, 424*
- determination of, of fingers by plethysmographic method, 277
- dynamics of, in thromboangiitis obliterans, 50
- in the dog, influence of posture on, 850*
- peripheral, in a case of adrenal pheochromocytoma before and after operation, 835
- in myxedema, 856*
- resting, in hyperthyroid state, 135*
- renal, effective, glomerular filtration rate, and tubular excretory mass in arterial hypertension, 858*
- resting, and peripheral vascular responses in different portions of the extremities, 565*
- velocity of, effects of posture on, from arm to tongue, 816
- objective method of determining (fluorescein), 423*
- pressure, arterial, comparison of simultaneous indirect (auscultatory) and direct (intra-arterial) measurements of, in man, 573*
- effect of chronic lead poisoning on, in dogs, 329
- reduction of, in hypertensive rats by administration of renal extracts, 138*
- regulation of, in seal during diving, 132*
- average, effect of parity on, and on incidence of hypertension, 280*
- capillary, effect of external pressure on vascular volume of forearm and its relation to, and venous pressure, 281*
- effect of external pressure on vascular volume of forearm and its relation to, and venous pressure, 859*
- Blood pressure—Cont'd
- diastolic, note upon more accurate measurement of, 182
- in right auricle in animals and in man, under normal conditions and in right heart failure, 281*
- venous, effect of external pressure on vascular volume of forearm and its relation to capillary blood pressure and, 281,* 859*
- substitutes for, in treatment of hemorrhage, secondary shock and burns, 138*
- vessels, reactions of, in the finger to cold, vasomotor components in, 865*
- small, smooth muscle motor-units in, 430*
- volume of, during cardiac failure and after improvement, 430*
- effect of epinephrine on, 432*
- of the forearm and its relation to capillary blood pressure and venous pressure, the effect of external pressure on, 859*
- study of quantitative methods of spontaneous variation in, of tips of fingers and toes and posterosuperior portion of pinna hypertensive patients and senile subjects, 864*
- of quantitative methods of spontaneous variations in, of finger tip, toe tip, and posterosuperior portion of pinna of resting normal white adults, 864*

- young, syphilitic aortitis of congenital origin in, 856*
- Cineroentgenogram, diagnosis by, of congenital and acquired heart disease, 853
- Circulation, adequacy of, use of fluorescein to determine, 866*
- cerebral, clinical syndrome produced by temporary disturbance of, 569*
- coronary, collateral, quantitative method for determining, 571*
- insufficiency of, 433 (B. rev.)
- vasodilators and, experimental observations, 679
- effect of drugs on, in normal hands and feet, 867*
- factors, mechanical, in study of, with special reference to problem of acute circulatory failure, 282*
- failure, acute, of, study of mechanical factors in circulation with special reference to problems of, 282*
- cardiac and peripheral, of, resistance factors determinants of, in hemorrhagic shock, 863*
- in acute glomerulonephritis, 283*
- measurement of edema in, 865*
- pulmonary and lung volume, effects on cardiovascular system of fluids administered intravenously in man, 712*
- dynamics of, in Raynaud's disease, effect of exposure to cold, 133*
- response of, of unanesthetized dog to small physiologic quantities of adrenalin, 284*
- time of, duplicate measurements of, made with alpha lobeline method, 863*
- use of papaverine as an objective measure of, 821
- venous, collateral, in case of thrombosis of inferior vena cava and its embryologic interpretation, 282*
